Subject: Upgrading of our Compounding Pharmacy

Dear Dr.

It gives me great pleasure to inform you of the recent upgrading of the facilities at our Compounding Pharmacy, (now under the supervision of a Registered Pharmacist with the Maharashtra State Pharmacy Council), to fully comply with the standards followed by Compounding Pharmacies in the United States of America.

Complying with the guidelines being followed by Compounding Pharmacies in USA, enables us to offer highly specialized formulations (hitherto not available from regular pharmaceutical companies and local chemists dispensing prescription drugs). The flexibility of a Compounding Pharmacy allows us to formulate small batches of special formulas for your patient's unique needs using data from our in-house bank of a very wide array of over 1,400 well tried formulas, developed over 20 years of research and case studies.

Compounding Pharmacy is a fairly new concept here in India. It is being introduced at an opportune time, to support the special needs of medical practice. Compounding Pharmacies are more versatile and can help to fill in the void created by the dying breed of compounders in doctor's dispensaries. We hardly see such dispensaries anymore.

What makes a Compounding Pharmacy so effective, and a need of the hour, is the special knowledge of a qualified Pharmacist supporting the Lab and the vast data base of well tried out modern formulations at our disposal.

Our formulation capability / expertise presently cover the following broad areas:

a) Topical gels, totally natural, for **stem cell activation** which finds application in non healing wounds, ulcers, burns, diabetic foot, Hansen's disease, Necrotizing Fasciitis, fingertip regeneration, large area skin loss, wound dehiscence, to name a few. Numerous case studies with progressive photos, published in American medical textbooks, can be found on our website. Formulations based on stem cell activation can also be used for **gastric mucus membrane regeneration** and treatment of acid reflux, gastric / peptic ulcers.

b) **Bio-identical hormone** topical gels, chemical free, with a totally natural base, for treatment of all kinds of hormonal imbalances in males and females, and for reversal of osteoporosis. These hormonal formulations are available with vitamin D3 as an option.

continued on page 2

c) **Nano silver** based formulations for treatment of all kinds of bacterial, fungal and viral infections and for sterilization of surgical instruments and operation theaters. Very effective and long lasting with no resistance for pseudomonas, MRSA, etc.

d) **Nano gold** based formulations, which due to the anti-inflammatory and analgesic properties finds use in treatment of many knee and sports injuries and are effective in knee cartilage repair. Nano gold is an important ingredient of our line of skincare and anti-aging formulation.

e) **Prescription strength / therapeutic doses of nutritional formulations / dietary supplements**, for efficient correction of nutritional deficiencies at intracellular levels, as per principles of **Orthomolecular Medicine**, for treatment of chronic diseases like hypertension, type 2 diabetes, cardiac diseases of all types, including improving Cardiac Efficiency and LVEF (Left Ventricular Ejection Fraction).

f) **Nutritional Precursors to increase Growth Hormone levels for anti-aging** the body, reducing visceral fat, increasing skin thickness, nail growth and hair volume / length.

g) **Herbal Dietary supplements**, for the treatment of all types of chronic diseases such as hypertension, type 2 diabetes, hormone imbalance in males / females, thyroid deficiencies, enlarged prostate, etc. Herbals supplements can be used for **detoxification** of all the excretory organs of the body such as kidneys, colon, lungs, skin, blood and also the liver; and the **rejuvenation** of the entire digestive system including the liver. Numerous published case studies with before and after pathological improvements can be found on our website.

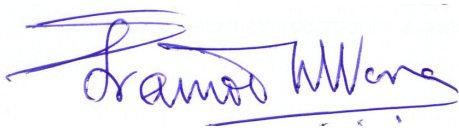

h) Any other **custom formulation** as per your special requirements.

May we encourage you to continue sending in your prescriptions and / or referring your patients to our Compounding Pharmacy. Our Registered Pharmacists on board, Ms. Sapna Patil, M. Pharm. will be more than happy to study your special requirements and custom formulate as per your needs.

Thank you for giving us an opportunity to introduce to you our newly update laboratories / facilities.

We look forward to working with you to meet your patient's most special needs.

Very sincerely yours,
for **SpaceAge Research Center**

Pramod Vora

Next Generation Stem Cell Therapy

For more information please go to:

<http://www.space-age.com/stemcell.html>

STEM CELL GEL

(With Stem Cell Activators)

Gel with nano silver induced stem cell activators help to dedifferentiate mature cells and also increase production of Progenitor Cells to cause rapid healing of non healing wounds, ulcers, burns, gangrene. Helps treat diabetic foot reducing greatly the risk of amputation. Made from Aloe Vera, the Gel is totally natural, and does not contain any harsh or toxic chemicals. Prevents post surgical infections and reduces scarring and wound dehiscence. [\[Check Photo Gallery pdf file\]](#). Used for **Finger Tip Regrowth after amputation**. [\[Photo Gallery pdf file\]](#) and **Sternal Dehiscence**.

Note:

It is highly recommended to use this gel in conjunction with other supporting nutrients to enhance the pace of repair work and regeneration in the body. [For more info on use and application of Stem Cell Gel click here.](#)

Main Ingredients: Aloe Vera Gel and Nano Silver.

Dosage: Apply liberally to cover the desired area. Apply as frequently as required and leave on overnight for best results .

Packing: 1.0 oz. (30 gram) tube and 2.0 oz. (60 gram) tube

Stem Cell Gel ----- [To Order / Consult Click Here](#)

1.0 oz. (30 gram) tube

2.0 oz. (60 gram) tube

Highly recommend for non healing wounds, ulcers, gangrene and diabetic foot. Reduces risk of amputation.

Stem Cell Gel

Contains: (Totally Natural – Chemical Free, does not contain Propylene Glycol)

Aloe Vera Gel

Nano Silver 32 ppm / 100 ppm

Glycerine 15% w/w

Indications:

Stem Cell Gel is used for the management of wounds including Pressure Ulcers, Venous Ulcers, Dermal lesions, Second degree burns, Donor sites.

Directions for Use:

- 1) Remove all dressing / ointment / previous bandages if any;
- 2) Bathe / rinse the wound with soap and water;
- 3) Apply a thin coat of gel on the surface of the wound / area of concern;
- 4) Cover it with a gauze / dressing and gently soak the gauze with nano silver spray until moist.
- 5) Now apply a dry piece of gauze to cover the wound with bandage or adhesive tape (plaster).
- 6) Repeat only spraying the wound with nano silver two more times a day at 6 to 8 hour intervals;
- 7) Repeat above procedure daily till satisfactory results are achieved.
- 8) Do not use saline, cetavlon, betadine, hydrogen peroxide or any other agent normally used in conventional wound toilet. Strictly adhere to the instructions for best results

Contraindications:

There are no absolute contraindications but its utility is limited when used heavily exudating wounds or wound covered with thick eschar.

Storage:

Store under Refrigeration (4° C. to 8.0° C. / 38° F. to 48° F.) to maintain full potency and extend shelf life.

Note:

Local wound care cannot overcome the deficits of unrelieved malnutrition, pressure compromised blood flow. Interventions must be instituted to reduce / relieve these factors that impair wound healing in order to achieve optimum results.

WOUNDS & ULCERS GEL

(With Stem Cell Activators for difficult to heal Wounds and Ulcers including Snake / Scorpion and Spider Bites)

Gel has nano silver stem cell activators to help difficult to heal wound / ulcer and snake, scorpion and spider bites. Nano Silver Stem Cell activators are delivered through topical applications. Made from Aloe Vera, the Gel is totally natural, and does not contain any harsh or toxic chemicals.

Main Ingredients: Aloe Vera Gel and Nano Silver.

Dosage: Apply liberally to cover the desired area morning and at bedtime after bath. Leave on overnight for best results .

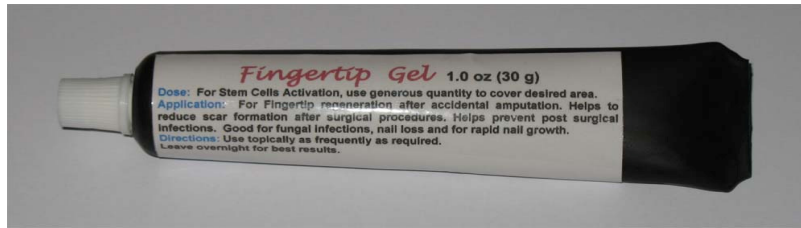

Form: 2.0 oz. (60 gram) tube - typically good for two months supply.

Pigmentation Gel ----- [To Order / Consult Click Here](#)

2.0 oz. (60 gram) tube

Highly recommend for those with chronic non healing wounds, ulcers and snake / scorpion and spider bites.

FINGERTIP GEL

(With Stem Cell Activators)

For fingertip regeneration after accidental amputation. Activated stem cells help to rapidly regenerate amputated fingertips. Good for fungal infections, nail loss and rapid nail growth. Made from Aloe Vera, the Gel is totally natural, and does not contain any harsh or toxic chemicals. Prevents infections and reduces scarring. For progressive pictures of **Finger Tip Regrowth after amputation**. [\[Photo Gallery pdf file\]](#). [For more info on use and application of Fingertip Gel click here.](#)

Main Ingredients: Aloe Vera Gel and Nano Silver.

Dosage: Apply liberally to cover the desired area. Apply as frequently as required and leave on overnight for best results .

Packing: 1.0 oz. (30 gram) tube

Fingertip Gel ----- [To Order / Consult Click Here](#)

1.0 oz. (30 gram) tube

In case of accidental amputation, please do not cover the wound with a skin graft or try to suture the fingertip shut. In case of children eleven years and older and adults it is highly recommended to use this gel in conjunction with: HGH Pro (Forte) to enhance the production of Growth Hormones in the body, StemXL (to increase production of stem cells in the body) and other supporting nutrients to enhance the pace of repair work and regeneration in the body. For more info and progressive pictures of child and adult fingertip regeneration [\[pdf file\]](#)

Fingertip Regeneration Gel

Contains: (Totally Natural – Chemical Free, does not contain Propylene Glycol)

Aloe Vera Gel

Nano Silver 32 ppm / 100 ppm

Glycerine 15% w/w

Indications:

Fingertip Gel is used for the regeneration of fingertips after accidental amputation / accidents and for accelerated finger and toe nail growth. **Very Important: Fingertips regenerate only if the wound is not covered with a flap of skin.**

Directions for Use:

- 9) Remove all dressing / ointment / previous bandages if any;
- 10) Bathe / rinse the wound with soap and water;
- 11) Apply a local anesthetic gel such as Toplap, Emla or Tetralid, over the area to be treated, at least 40 minutes prior to commencing the procedure for regeneration; (TOPICAINE 4% - Lidocaine Gel 4 Oz (113 g) Topical *Anesthetic Gel* with Lidocaine 4%), EMLA - 2.5% each of lidocaine/prilocaine,
- 12) Next, using a hypodermic needle and placing a drop of Fingertip Regeneration Gel over the tip of the finger make several pricks through the coat of the gel into the skin pulp;
- 13) Allow the area concerned to bleed / start bleeding;
- 14) Now cover the treated area with a sterile gauze and tape it / bandage the finger;
- 15) Shake the Nano Silver Spray bottle and spray over the gauze until it is soaked / moist;
- 16) Keep the gauze / dressing moist by spraying nano silver two more times a day at 6 to 8 hour intervals;
- 17) Repeat above procedure daily for 90 days or till satisfactory results are achieved. Pricking should be restricted to once or twice a week after the first week of daily pricking. This will enable the regeneration to occur more effectively; and
- 18) Do not use saline, cetavlon, betadine, hydrogen peroxide or any other agent normally used in conventional wound toilet. Strictly adhere to the instructions for best results.

Contraindications:

There are no absolute contraindications but its utility is limited when used heavily exudating wounds or wound covered with thick eschar.

Storage:

Store under Refrigeration (4° C. to 8.0° C. / 38° F. to 48° F.) to maintain full potency and extend shelf life.

Note:

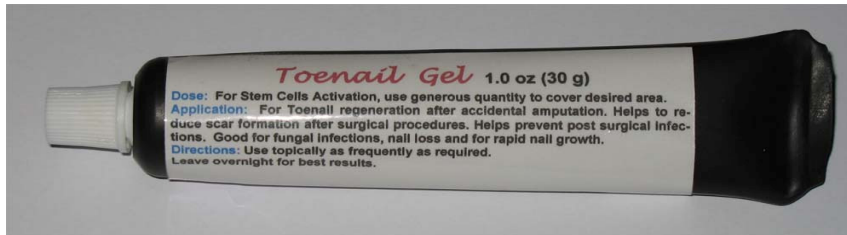

Fingertip regeneration cannot overcome the deficits of unrelieved malnutrition, pressure compromised blood flow. Interventions must be instituted to reduce / relieve these factors that impair regeneration in order to achieve optimum results.

GastriX (60 capsules)	To Order / Consult Click Here
GastriX (120 capsules)	To Order / Consult Click Here
Helps recreate a healthy mucus lining on the walls of the stomach and the intestines; and simultaneously reduce inflammation.	

Superiority of Naturally formulated Bio-identical Hormone Gels over BHRT Creams

The Bio-identical Hormone Gels are specially prepared by our Compounding Pharmacists from materials sourced from world famous FDA approved Pharmaceutical companies.

We have an ISO certified clean room facility and a licensed compounding pharmacist on staff. The bulk powders for the active ingredients are produced in a US FDA inspected facility and the Bio-identical Gels are made in an ISO certified clean room that meets WHO standards. The benefit of our Bio-identical Hormones is that there is a wider range of dosages and formulations available at very low cost without any compromise in quality.

The Bio-identical Hormones available from other Compounding pharmacies are made from a base of synthetic chemical cream with chemicals (like Polyethylene Glycol or Propylene Glycol, etc.) and chemical preservatives added to it.

In comparison, the Bio-identical Hormone Gels provided by our pharmacy, are made from pure natural Aloe Vera Gel base and do not contain any chemical preservatives in them. We have diffused Nano silver particles in the gels which serve as preservatives due to the anti-bacterial, antifungal and antiseptic properties of Nano silver. All the ingredients of our Gel are from plant origin and / or fall in the category of Generally Recognized As Safe (GRAS). Our Gels are free of toxic materials like Mercury, Lead, Nickel, etc.

Bio-identical Hormones available from other Compounding Pharmacies are dispensed in Syringes, which makes it difficult for lay and non scientific patients to use them and dose themselves correctly. Our Hormone Gels are dispensed in squeeze bottles which makes it possible to apply numerous micro doses of hormone laden gels and to vary the doses as per each person's individual requirements and also as per the day of the cycle. The patient is advised to listen to their body and do what feels right for them.

We have shipped over 100,000 Gels to over 10,000 satisfied patients all over the world during the last decade and have the experience that goes with this long period of association with the science of Bio-identical Hormone Therapy.

No animals were used in the testing of our Bio-identical Hormone Gels

In addition our Gels are very attractively priced and are far below the cost of similar products from other Compounding Pharmacies.

We also offer 24 X 7 support to Physicians all over the world in the evolving subject of Endocrine Imbalances of all types and other chronic ailments.

All this makes our Gels far superior to those manufactured by other Compounding Pharmacies in the world.

Customer Comments:

Received my order and want to thank you for your fine service.....

I have ordered 3 bio-identical hormones and observe the difference between the compounded versions from this country and your version, which is beautifully packaged, very refined and thorough in the accompanying explanatory information....

Very appreciated...

I am curious about the shelf life of the bio-identical compounds....

I also like the mailing envelop and the lovely stamps....

Thanks
dk

Doctor's Comments:

We really enjoyed meeting with you at the A4M meeting. We are very excited about all we learned and look forward to our personal consultation with you about our personal health.

Because we are OB/GYNs, we want to quickly begin implementing the transdermal hormone therapy into our practice. Many of the American compounding pharmacies that we saw are still using cream filled syringes.

We are very excited to work with you. Your costs are well below everyone else. I can't wait to talk with you on the phone. If I don't answer straight away its only because I'm in a C-Section or delivery. Otherwise I can answer 24 hours a day (I'm very used to being called in the middle of the night if you're back in India)

Talk to you soon.

D and K, M.D. FACOG

OB/GYN

Patient Comments:

Wonderful news, I am only using your hormone gel, and I am feeling very centered and positive. The gel seems to be more effective than the Progesterone capsules I was taking in the past. I even spotted this cycle. I feel very hopeful. So thank you. The world needs more caring and knowledgeable Doctors like you.

Ms. Helena

A. Some popular Bioidentical Hormone formulations for females:

Progest XL Gel – 0.5 oz. (15 grams) with Bioidentical Progesterone

Triest LD Gel – 0.5 oz. (15 grams) with Bioidentical Estrogen

DHEA (F) Gel – 0.5 oz. (15 grams) with Bioidentical DHEA

Women's XL Gel – 0.5 oz. (15 grams) with Bioidentical Progesterone, DHEA and Testosterone

These are high concentration, deep penetrating for topical application and typically last for two months.

Optional Ingredient: Vitamin D₃. 1000 IUs per application. Vitamin D₃ is a hormone and is better absorbed through topical application and is gradually delivered over a 24 hour period through the skin. This helps to quickly reach optimum levels in the blood report without having to inject or take large doses orally which cause a load on the excretory organs and unnecessary and dangerous spikes in blood levels.

B. Some popular Bioidentical Hormone formulations for males:

Andro XL Gel – 0.5 oz. (15 grams) with Bioidentical Testosterone

DHEA (M) Gel – 0.5 oz. (15 grams) with Bioidentical DHEA

DHEA Pro Gel – 0.5 oz. (15 grams) with Bioidentical DHEA and Progesterone

Men's XL Gel – 0.5 oz. (15 grams) with Bioidentical Testosterone, DHEA and Progesterone

These are high concentration, deep penetrating for topical application and typically last for two months.

Optional Ingredient: Vitamin D₃. 1000 IUs per application. Vitamin D₃ is a hormone and is better absorbed through topical application and is gradually delivered over a 24 hour period through the skin. This helps to quickly reach optimum levels in the blood report without having to inject or take large doses orally which cause a load on the excretory organs and unnecessary and dangerous spikes in blood levels.

Many other custom formulations are available from our Compounding Pharmacists on demand.

Our Compounding Pharmacy ships these worldwide.

(for Females)

DHEA (F) Prescription Strength Bioidentical Sex Hormone produced by the Adrenal Glands. It is known as a Mother Hormone as it can convert to Estrogen, Progesterone, Testosterone and other essential Hormones required by the Body. Helps Naturally raise Estrogen (Estrone, Estradiol, Estriol), Progesterone, and Testosterone levels, relieve menopausal symptoms, menstrual cramps, lower blood pressure and cholesterol; and increase libido. Micronized for higher potency.

Ingredients: Aloe Vera Gel, Bioidentical DHEA (micronized) derived from natural sources like Wild Yam / Soy.

Dosage: Apply 12 drops (0.25g) amount containing an average of 2.5mg DHEA in the morning after bath.

DHEA (F) Gel 10mg/gram
15g
(2 months supply)

DHEA (F) Gel 10mg/gram
30g
(4 months supply)

Helps correct Hormone Imbalance and reduce midlife crisis. Helps to maintain Testosterone at healthy levels to raise sex drive and libido in the female body.

Bioidentical Hormones for Men

MEN'S GEL

(Will beat the performance of regular Andro Gel in raising Testosterone levels in Males.)

Prescription Strength mixture of Bioidentical Male Sex Hormones. Helps Naturally raise Testosterone levels, relieve the Male Menopausal (Andropausal) symptoms including Erectile Dysfunction. The small amount of Progesterone in this Gel which is a naturally powerful 5-alpha reductase inhibitor, helps to naturally maintain elevated Testosterone levels, by preventing the conversion of Testosterone into unwanted DHT. Excessive DHT causes Baldness and Prostate disease. Elevated Testosterone helps increase Hair Growth. Micronized for higher potency.

Ingredients: Aloe Vera Gel, Bioidentical DHEA, Progesterone, and a proprietary mix of Male Bioidentical Hormones (micronized) derived from natural sources like Wild Yam / Soy.

Optional Ingredient: Vitamin D₃. 1000 IUs per application. Vitamin D₃ is a hormone and is better absorbed through topical application and is gradually delivered over a 24 hour period through the skin. This helps to quickly reach optimum levels in the blood report without having to inject or take large doses orally which cause a load on the excretory organs and unnecessary and dangerous spikes in blood levels.

Dosage: Apply 12 drops (0.25g) - pea size amount in the morning after bath.

Depending upon your age you may want to slightly increase the quantity per application once or twice a day (recommended for males 50 years or older).

Men's Gel 10/10/25mg/g 15g (2 months supply)	
Men's Gel 10/10/25mg/g 30g (4 months supply)	
Men's XL Gel 10/10/50mg/g 15g (2 months supply)	
Men's XL Gel 10/10/50mg/g 30g (4 months supply)	

Helps correct Hormone Imbalance and reduce Midlife Crisis and Andropausal Symptoms like Erectile Dysfunction, Aging, Weight Gain / Water Retention, Memory Loss, Mood Swings, Depression, Anger and Irritability.

Optional Ingredient: Vitamin D₃. 1000 IUs per application. Vitamin D₃ is a hormone and is better absorbed through topical application and is gradually delivered over a 24 hour period through the skin. This helps to quickly reach optimum levels in the blood report without having to inject or take large doses orally which cause a load on the excretory organs and unnecessary and dangerous spikes in blood levels.

<div><div>Secret to Vibrant Sex Life after 40 for Males & Females.</div></div>	

DHEA (M) GEL

(for Males)

DHEA (M) Prescription Strength Bioidentical Sex Hormone produced by the Adrenal Glands. It is known as a Mother Hormone as it can convert into Testosterone, and other essential Hormones required by the Body. Helps Naturally raise Testosterone levels, relieve the Male Menopausal (Andropausal) symptoms, Erectile Dysfunction, lower Blood Pressure and Cholesterol. Micronized for higher potency.

Ingredients: Aloe Vera Gel, Bioidentical DHEA (micronized) derived from natural sources like Wild Yam / Soy.

Dosage: Apply 12 drops (0.25g) amount containing an average of 6.25mg DHEA in the morning after bath.

Depending upon your age you may want to increase the quantity per application to 24 drops (0.5g) containing an average of 12.5mg DHEA once or twice a day (recommended for males 50 years or older).

DHEA (M) Gel 25mg/gram
15g
(1 to 2* months supply)

DHEA (M) Gel 25mg/gram
30g
(2 to 4* months supply)

Helps correct Hormone Imbalance and reduce Midlife Crisis and Andropausal Symptoms like Erectile Dysfunction, Aging, Weight Gain / Water Retention, Memory Loss, Mood Swings, Depression, Anger and Irritability.

Naturally Reduce Risk of Hair Loss !

+

Grow New Hair !

DHEA PRO (M) GEL

(for Males)

DHEA (M) Prescription Strength Bioidentical Sex Hormone produced by the Adrenal Glands. It is known as a Mother Hormone as it can convert into Testosterone, and other essential Hormones required by the Body. When combined with Progesterone which is a naturally powerful 5-alpha reductase inhibitor, it helps to naturally maintain elevated Testosterone levels, by preventing the conversion of Testosterone into unwanted DHT. Excessive DHT causes Baldness and Prostate disease. Elevated Testosterone helps increase Hair Growth. Micronized for higher potency.

Ingredients: Aloe Vera Gel, Bioidentical DHEA (micronized) & Progesterone derived from natural sources like Wild Yam / Soy.

Dosage: Apply 12 drops (0.25g) amount containing an average of 6.25mg DHEA + 2.5mg of Progesterone 1 to 2 hours before bedtime.

Depending upon your age you may want to increase the quantity per application to 24 drops (0.5g) containing an average of 12.5mg DHEA + 5.0mg of Progesterone once or twice a day (recommended for males 50 years or older).

DHEA PRO (M) Gel 25mg/gm
+ 10mg/gm 15g
(1 to 2* months supply)

DHEA PRO (M) Gel 25mg/gm
+ 10mg/gm 30g
(2 to 4* months supply)

Helps correct Male Hormone Imbalance and Andropausal Symptoms by naturally raising Testosterone levels to help increase *Hair Growth* and inhibiting DHT to reduce the *Risk of Hair Loss*.
