

Concierge Medicine / Packages

Our health center has completed 10,000+ cases during the past few decades and presently restricts to about 100 active cases under our Concierge Program. We try not to take too many cases in order to maintain the quality of our work and ability to pay individual attention to each person. A large number of our cases are located worldwide and we do offer online consultations through e-mails, sms, WhatsApp, Skype, etc.

We have very different standards and methods of reading, interpreting and projecting blood reports into the future; and investigating the root cause, isolating drug induced symptoms and treating the root cause rather than the symptoms. We therefore encourage all potential patients to submit all their older blood reports / medical investigation done for our scrutiny, for a re-read and re-analysis as per standards of Preventive and Anti-Aging / Regenerative Medicine. You can download our standard Questionnaire to begin a dialog with us by visiting: <https://www.space-age.com/consultform01.php>
Here you can submit a short note on your health challenges or complete an online form giving specific details of your health issues and all prescription drugs and supplements you are presently on. The link for this online form is:

Time and again we have been able to demonstrate extraordinary results (normally considered impossible to achieve in medicine) due to our deep knowledge of Intracellular / Orthomolecular Medicine, Regenerative Medicine (for repairing and improving the efficiency of various organs of the body) and our access to special prescription strength / therapeutic doses of supplements which we are able to formulate at our highly specialized in-house Compounding Pharmacy.

Unlike the "10 minute consultations, here take this prescription and go to the pharmacy" model of most MDs worldwide, we have adapted the Concierge Medicine model of working at our health center.

Concierge Medicine requires our investment of a few hours of consultation time each month for each new case we take up and the subsequent time involved thereafter to monitor and implement the custom protocols drafted to suit each person, in order to ensure these extraordinary results.

Since we continue to work on each case we take up for an extended period of approximately 6 to 12 months, the model of Concierge Medicine suits our health center best. Under the framework of Concierge Medicine we charge a monthly retainer which covers time spent on consultation and the cost of formulations necessary to support the treatment. The retainer does not cover the cost of blood work, other medical investigation or any health devices required under the program. Payments are normally done through purchase of a package, with an installment plan as an option. Depending on the complications of the case, the cost are normally higher in the first 2 months and thereafter reduces as various parameter of the body, at an

intracellular level, are brought to their Optimum Values. The costs may be higher for highly complicated cases and chaotic health conditions not responding to allopathy and certain anti-aging and longevity enhancing treatments.

Trust this will give you a better idea of our commitment of time, sustained effort and an ability to pay undivided attention to each case we take up, to ensure extraordinary results with a higher degree of success.

The above information should help you to adequately prepare yourself to know what to expect, compare it to what is available out there, set your health goals higher and efficiently / economically go about to achieve extraordinary results at our health center.
