

Expert Comments & Encouragement:

The finger (tip regrowth) is most impressive you should submit this for publication in next issue of Textbook of Anti-aging Medicine.

Dear Dr. Pramod Vora,

First of all I should tell you that my old doctor patient made excellent strides on her 18 month ulcer while I was in India by using the Environ lowest grade vitamin A cream. However, within a day of my return I started her on the stem cell gel and the progress has been amazing.

Dear Pramod,

First of all thank you very much for sending me this information. The results are excellent.

I'll look at the feasibility of using Stem Cell Activation in my practice/set up.

Can you send me protocol on the same.

With regards,

Dr. Balvant Arora, M.D.

Dear Dr Vora,

The stem cell gel is also working well in a sternal dehiscence case.

The Silver nano stem cell gel showed good result in the tummy tuck wound dehiscence.

Congratulations on regrowth of finger tip using stem cell activation.

Best wishes and warm regards

I just want to let you know that the stem cell gell did a wonderful job to my father's amputated diabetic knee as the doctor's in Morocco confirmed & were amazed. I thank you sincerely for this. I have given your e-mail to two doctors - specialist in the field of traumatology & esthetics who will contact you directly about this.

I thank you once more for this amazing cure.

God bless you.
