

SpaceAge Institute of Antiaging Research - Introduction

Areas of Specialization:

1. **Internal Medicine**, with focus on reversing chronic diseases such as Hypertension, Type 2 Diabetes, etc. and reducing dependence on Prescription Drugs.
2. **Anti-Aging Body and various Organs** supported by before and after pathological evaluation
3. **Total Body Transformation** to give a younger look and feel, especially targeted to celebrity / socialite clientele. This has been one of our strong points these last few decades.
4. **Regenerative Medicine** based on dedifferentiation of cells and activation of body's Stem Cells.
5. **Nano Bio-Technology**
6. **Bio-Magnetics and Energy Medicine**
7. **Innovations in Agriculture** based on Nano Bio-Technology and Soil Re-mineralization. This makes Organic Farming obsolete.
8. **Compounding Pharmacy** - Registered with the Maharashtra State Pharmacy Council - specializing in **Intracellular Nutrition**, which is under the supervision of Dr. Sapna Patil, Ph.D. Registered Pharmacist.

Facilities:

5,500 sq ft facility in Marol (less than 1 Km from the Mumbai International Airport) to house our Research Laboratories & a Teaching Institution.

The new facilities will become operational at the end of the first quarter of 2021 and will represent the state of art Research Laboratories engaged in highly specialized and unique activities, which we have successfully pursued these last few decades.

We have a very sophisticated Conference Room which is class room ready and is equipped as a Zoom Video Conferencing / Seminar Room and a regular Class Room, meeting international standards, to impart knowledge and take it to the next levels of wisdom, perception and enlightenment, with highly dedicated / passionate faculty supported by dedicated students.

Student Enrollment:

A monumental activity at our Research Institution centers around conducting teaching classes for experienced MDs (interested in pursuing **Internal Medicine / Concierge Medicine / Telemedicine**) and mentoring them to duplicate the kind of high success rate results we have been achieving these last few decades. The level of the imparted knowledge and wisdom in these classes should take these MDs (with prior clinical experience) to a point at least 100 years ahead of present world knowledge in medicine. The goal of this Institution is also to ensure that our present very advanced knowledge / expertise is not lost to the next generation of Doctors, but is perpetuated into the future and developed still further at this institute through dedicated research and case studies.

Your Quest for Perfect Health / Longevity Ends Here!

Initial enrolment is offered to 12 medically qualified and experienced students with minimum of 10 years experience in actual clinical practice, who are strategically located in various high end areas of Mumbai, Los Angeles and New York. We plan to conduct physical / virtual classes on days and times which will not interfere with the regular practice hours of these Doctors, besides also offering Zoom Video Support, on a case by case basis, for developing their hands on expertise. These doctors will be trained to interact with high net worth individuals who appreciate investing in their health and the extraordinary results presently being achieved at our health center, based on the medical knowledge/wisdom at the command of the institute.

The institute does plan to offer scholarship to deserving students.

The institute will teach / offer support internationally through Zoom Video Conferencing.

Faculty:

Faculty Members, Spiritual Guides and Disciples
